

TÜV Italia recognized as Verificatore Indipendente di Sicurezza (VIS)

TÜV Italia (TÜV SÜD's legal entity in Italy) has been recently recognized as a VIS "Verificatore Indipendente di Sicurezza".

Recognition was awarded by the Italian National Safety Authority (ANSF).

The VIS role includes the DeBo role. So, with this recognition, TÜV SÜD can now offer inspection activities related to the Italian National Notified Technical Rules (NNTRs).

The VIS role also exceeds the typical scope of a DeBo as it includes, in specific cases, e.g. the role of test authority and/or the role of AsBo (for CSM).
